

## Databases

Zentralblatt MATH offers subject searches in pure and applied mathematics. Books and papers are peer-reviewed.

You can use the button "Full Text DOI" to obtain access to the full text of the papers in this database if the journal is licensed.

Otherwise, please send your literature request to

[bibliothek@zib.de](mailto:bibliothek@zib.de)

The library subscribes to the following e-packages:

[ACM – Digital Library](#)

[SIAM Electronic Journals](#)

[Springer Electronic Journals](#)

## Catalogue

The catalogue contains all available books. Click on the field "Number of items" and subsequently on the magnifying glass to find out about the name of a possible borrower. Chances are that the sought-after book is just in the adjacent office and you do not even need to visit the library.

The holdings of the ZIB library are also included in the KOBV catalogue.

## Publications

The institutional repository of the Zuse Institute includes the publications by ZIB-authors. You can add articles or books that you have published and you have the possibility to publish open access in the preprint series "ZIB-Report". It is in this way that the publication lists on the web are created.

Access and further information:

Wiki "[ZIB Publications in OPUS](#)" (access via LDAP)

Please do not hesitate to contact the library staff should you have any questions.

The library's premises offer you a comfortable and quiet place with internet access for reading and working.

BERLIN

## The Library

ZIB staff who hold a key can access the library at all hours.

Book or paper requests for ZIB-employees:

[bibliothek@zib.de](mailto:bibliothek@zib.de)

Phone 233 or 217

Office hours (usually): Monday-Friday

10 a.m. - 4 p.m.

## Service

You can't find the book in the catalogue? The PDF of the sought-after paper is not licenced?

We provide you with the desired literature (papers, books, grey literature etc.) as fast as possible using acquisition, library inter-lending and document delivery services.

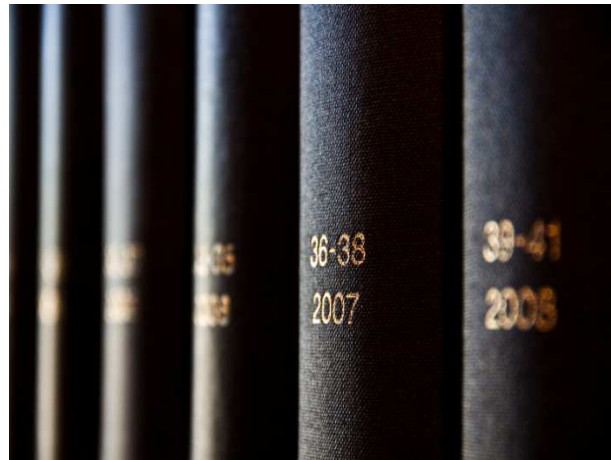

We offer all employees a personal, demand-oriented service to ensure a successful literature provision. E-mail or phone us to let us know if you need something. Of course you are more than welcome to visit the library in person.

Library staff are generally present Monday to Friday from 10 a.m. to 4 p.m.

## Loan collection

Your key opens the library any time.

You can immediately see which titles are available in the library for e.g. graph theory, since the books are shelved according to the Mathematics Subject Classification MSC and the CR Classification System of the ACM.

In every book is a red card included on which you sign in with your name and the date if you want to borrow the book. Just leave the card in the black tray labeled "Leihkarten" and we will take care of it.

There is no loan period.

If you want to return the book, just place it in the tray labeled "Buchrückgabe".

## Electronic Journals

The library has access to approx. 19.000 journals.

All ZIB IP numbers have access.

Alerting / Table of Contents services: for more information visit [the Wiki "Bibliothek"](#).

Search for journals:

You can search for all journals in the serials database [EZB](#). For each journal, access rights are stated so you can see immediately if you have full access as a ZIB employee. If you cannot access the sought-after paper, forward your literature request to the library and we'll attend to it as soon as possible.
