

An Example of a Properly Formatted Paper for the TNTN 2020

Author¹, Author², Author^{1,2},

¹ *Affiliation*

² *Affiliation*

This is an example of proper formatting of a paper contributed to the TNTN 2020 comprising the *OWTNM 2020 - XXVIII International Workshop on Optical Wave & Waveguide Theory and Numerical Modelling* and the *13th Annual Meeting Photonic Devices*. Please underline the name of the presenting author.

Formatting guidelines

To ensure a reasonably uniform appearance of the papers in the electronic book of papers, we ask all authors to follow these formatting instructions. Be aware that your paper will appear online.

The expected and maximum length of the contribution is 1 page. Prepare the document for A4 paper size, with margins of 2 cm (sides), and of 2.5 cm and 3.2 cm (top and bottom). Application of a single font of the type Times New Roman throughout the whole paper is strongly recommended. The title should be written in 14 pt bold letters. The authors' name(s) and affiliation(s) should be centered and placed 12 pts below the title. The recommended font size is 12 pt (normal) for the authors' name(s), and 11 pt italics for the affiliation(s). The abstract (11 pt font size) has to be placed 12 pts below the affiliation(s). The text of the contribution should then follow singespaced, of 12 pt size. References should be formatted preferably as shown below [1]. Displayed equations should be centered:

$$E(x, z) = \Psi(x) \exp(-i\beta z).$$

Number figures, tables, and equations only when actually required. Omit page numbers.

Figures and tables should be provided with captions.

Submission

Submit your paper to [*tntn2020@zib.de](mailto:tntn2020@zib.de), before **Dezember 15, 2019**.
